

www.duckcreekfarms.com availability **March 30, 2020**

Key to the availability for herbs. If it in black it's ok to plant out now. **If it's in red**, I would recommend waiting until it warms up after April 15 or later. If there is a number next to the plant that is the number I have now. If no number, it's probably in sufficient quantities to meet demand,

NR=NOT READY

This is by no way complete list of plants I have. As plants become available or nearing availability, they will be listed.

HERBS are in 4 inch round pots and are \$3.00 each unless noted differently. Bay Leaf in is quarts and is \$6.00 I have given an estimated time I hope some plants will be ready, but It depends on the weather.
